1.1 Revision History

Publicatieversie 1.0 (04-09-2017)

1.2 Concept

The StrongKids score is a (validated) measuring tool for determining the extent of a child's malnutrition. StrongKids is developed to recognize and treat malnutrition in children aged > 1 month to 18 years in a hospital setting.

The tool comprises four questions, each of which is assigned a score. The total score determines the extent of malnutrition.

(STRONGkids= Screening Tool Risk On Nutritional Status and Growth)

1.3 Mindmap

1.4 Purpose

The StrongKids score is used to determine the extent of malnutrition or the risk of malnutrition. To treat malnutrition quickly and effectively, it is important to identify the malnutrition at an early stage.

1.5 Patient Population

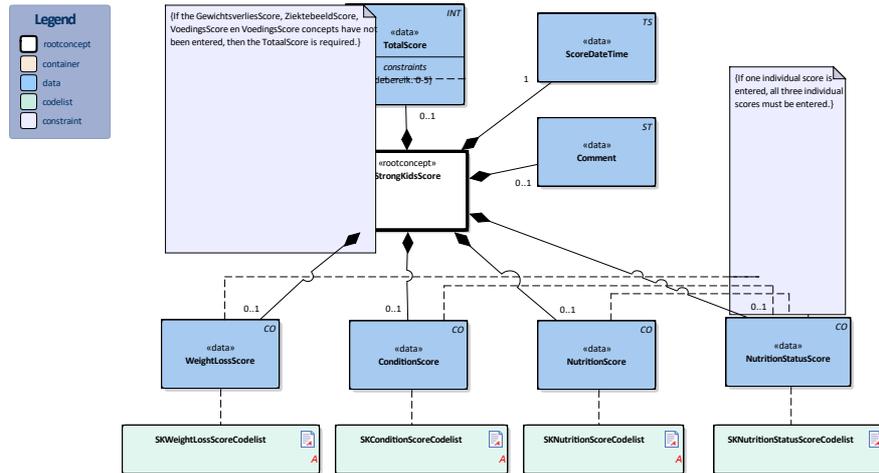

The StrongKids screening is meant for patients aged 1 month to 18 years of age who are admitted to the hospital.

1.6 Evidence Base

To determine the extent of malnutrition, SNAQ has a number of tools, validated for different settings:

- The SNAQ was developed for adults admitted to hospital
- The SNAQ65+ was developed for the group of seniors (> over 65) who live at home and who may make use of care at home.
- The SNAQrc (Short Nutritional Assessment Questionnaire for Residential Care) is available for screening for malnutrition in nursing and retirement homes.
- The STRONGkids tool is available for screening for malnutrition among children.

1.7 Information Model

«rootconcept»	StrongKidsScore	
Definitie	Root concept of the StrongKidsScore information model. This root concept contains all data elements of the StrongKidsScore information model.	
Datatype		
DCM::ConceptId	NL-CM:4.28.1	
Opties		

«data»	TotalScore	
Definitie	The total score is the sum of all the individual scores. The total score has a range from 0 - 5.	
Datatype	INT	
DCM::ConceptId	NL-CM:4.28.2	
Opties		
Constraint	Waardebereik: 0-5	Voeg hier de Engelse definitie in

«data»	ScoreDateTime	
Definitie	The date and time at which the StrongKids score was determined.	
Datatype	TS	
DCM::ConceptId	NL-CM:4.28.6	
Opties		

«data»	Comment	
Definitie	A comment on the circumstances during the measurement.	
Datatype	ST	
DCM::ConceptId	NL-CM:4.28.7	

DCM::DefinitionCode	LOINC: 48767-8 Annotation comment	
Opties		

«data»	WeightLossScore	
Definitie	The score based on undesired weight loss or arrest in growth or weight gain over the past weeks to month(s).	
Datatype	CO	
DCM::ConceptId	NL-CM:4.28.3	
DCM::ValueSet	SKWeightLossScoreCodelist	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.28.1
Opties		

«data»	ConditionScore	
Definitie	The score based on the presence of a condition that can cause an increased risk of malnutrition. A list with conditions with increased risk is given in reference [1]	
Datatype	CO	
DCM::ConceptId	NL-CM:4.28.4	
DCM::ValueSet	SKConditionScoreCodelist	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.28.2
Opties		

«data»	NutritionScore	
Definitie	The score based on the presence of aspects that indicate a deteriorated nutrition status: - excessive diarrhea and/or vomiting - use of fluid or enteral nutrition - reduced intake of food during the past 1-3 days - obstruction of food intake by pain	
Datatype	CO	
DCM::ConceptId	NL-CM:4.28.5	
DCM::ValueSet	SKNutritionScoreCodelist	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.28.3
Opties		

«data»	NutritionStatusScore	
Definitie	The score gives an indication of the nutrition status of the patient based on the professional opinion of the healthcare professional.	
Datatype	CO	
DCM::ConceptId	NL-CM:4.28.8	
DCM::ValueSet	SKNutritionStatusScoreCodelist	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.28.4

The Health and Care Information Models (a.k.a Clinical Building Block) has been made in collaboration with several different parties in healthcare. These parties asked Nictiz to manage good maintenance and development of the information models. Hereafter, these parties and Nictiz are referred to as the collaborating parties. The collaborating parties paid utmost attention to the reliability and topicality of the data in these Health and Care Information Models. Omissions and inaccuracies may however occur. The collaborating parties are not liable for any damages resulting from omissions or inaccuracies in the information provided, nor are they liable for damages resulting from problems caused by or inherent to distributing information on the internet, such as malfunctions, interruptions, errors or delays in information or services provide by the parties to you or by you to the parties via a website or via e-mail, or any other digital means. The collaborating parties will also not accept liability for any damages resulting from the use of data, advice or ideas provided by or on behalf of the parties by means of the Health and Care Information Models. The parties will not accept any liability for the content of information in this Health and Care Information Model to which or from which a hyperlink is referred. In the event of contradictions in mentioned Health and Care Information Model documents and files, the most recent and highest version of the listed order in the revisions will indicate the priority of the documents in question. If information included in the digital version of a Health and Care Information Model is also distributed in writing, the written version will be leading in case of textual differences. This will apply if both have the same version number and date. A definitive version has priority over a draft version. A revised version has priority over previous versions.

1.19 Terms of Use

The user may use the Health and Care Information Models without limitations. The copyright provisions in the paragraph concerned apply to copying, distributing and passing on the Health and Care Information Models.

1.20 Copyrights

A Health and Care Information Model qualifies as a work within the meaning of Section 10 of the Copyright Act (Auteurswet). Copyrights protect the Health and Care Information Models and these rights are owned by the cooperating parties.
