1.1 Revision History

Publicatieversie 1.0 (04-09-2017)

1.2 Concept

The total water intake and water excretion within a certain time period: a disbalance can lead to for example dehydration or overfilling.

1.3 Mindmap

1.4 Purpose

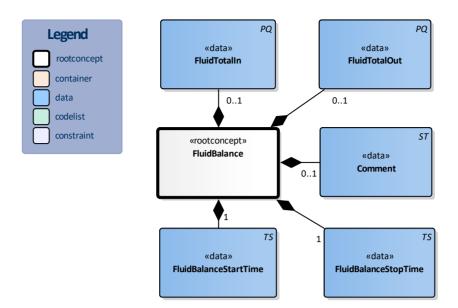

Information about the water balance provides insight in the care plan for drinking and possibly administering extra fluids, when the balance is disrupted such as dehydration or overfilling.

1.5 Patient Population

1.6 Evidence Base

The definitions of the concepts were (partly) based on the guideline Dehydration by the VvOV.

1.7 Information Model

| «rootconcept» | FluidBalance | |
|----------------|---|--|
| Definitie | Root concept of the FluidBalance information model. This root concept contains all data elements of the FluidBalance information model. | |
| Datatype | | |
| DCM::ConceptId | NL-CM:12.15.1 | |
| Opties | | |

| «data» | Comment | |
|---------------------|-------------------------------|--|
| Definitie | Comment on the fluid balance. | |
| Datatype | ST | |
| DCM::ConceptId | NL-CM:12.15.6 | |
| DCM::DefinitionCode | LOINC: 48767-8 Annotation | |
| | comment | |
| Opties | | |

| «data» | FluidTotalIn | |
|---------------------|--|--|
| Definitie | The total of fluid intake (e.g. by mouth, drip or tube feeding) in mL. | |
| Datatype | PQ | |
| DCM::ConceptId | NL-CM:12.15.4 | |
| DCM::DefinitionCode | SNOMED CT:251852001 | |
| | Total fluid input | |
| Opties | | |

| «data» | FluidTotalOut | |
|---------------------|--|--|
| Definitie | The total of fluid excretion (e.g. urine production, drain, watery defecation) | |
| | in mL. | |
| Datatype | PQ | |
| DCM::ConceptId | NL-CM:12.15.5 | |
| DCM::DefinitionCode | SNOMED CT:251841007 | |
| | Total fluid output | |
| Opties | | |

| «data» FluidBalanceStartTime | | |
|-------------------------------------|---|--|
| Definitie | The time at which the measurement of the fluid balance was started. | |
| Datatype | TS | |
| DCM::ConceptId | NL-CM:12.15.2 | |
| DCM::ExampleValue | 21-05-2015 | |

| Opties | |
|-----------|--|
| Cones | |
| O P C. CC | |
| | |

| «data» | FluidBalanceStopTime | |
|-------------------|---|--|
| Definitie | The time at which the measurement of the fluid balance was stopped. | |
| Datatype | TS | |
| DCM::ConceptId | NL-CM:12.15.3 | |
| DCM::ExampleValue | 21-05-2015 | |
| Opties | | |

| | Legend |
|-----------|--------|
| Definitie | |
| Datatype | |
| | |
| Opties | |

1.8 Example Instances

| Vochtbalans | |
|----------------------|-----------------|
| VochtTotaalIn | 1400 ml |
| VochtTotaalUit | 1000 ml |
| VochtbalansStarttijd | 19-12-2016 0:00 |
| VochtbalansStoptijd | 20-12-2016 0:00 |
| Toelichting | - |

1.9 Instructions

1.10 Interpretation

1.11 Care Process

1.12 Example of the Instrument

1.13 Constraints

1.14 Issues

1.15 References

1.16 Functional Model

1.17 Traceability to other Standards

1.18 Disclaimer

The Health and Care Information Models (a.k.a Clinical Building Block) has been made in collaboration with several different parties in healthcare. These parties asked Nictiz to manage good maintenance and development of the information models. Hereafter, these parties and Nictiz are referred to as the collaborating parties. The collaborating parties paid utmost attention to the reliability and topicality of the data in these Health and Care Information Models. Omissions and inaccuracies may however occur. The collaborating parties are not liable for any damages resulting from omissions or inaccuracies in the information provided, nor are they liable for damages resulting from problems caused by or inherent to distributing information on the internet, such as malfunctions, interruptions, errors or delays in information or services provide by the parties to you or by you to the parties via a website or via e-mail, or any other digital means. The collaborating parties will also not accept liability for any damages resulting from the use of data, advice or ideas provided by or on behalf of the parties by means of the Health and Care Information Models. The parties will not accept any liability for the content of information in this Health and Care Information Model to which or from which a hyperlink is referred. In the event of contradictions in mentioned Health and Care Information Model documents and files, the most recent and highest version of the listed order in the revisions will indicate the priority of the documents in question. If information included in the digital version of a Health and Care Information Model is also distributed in writing, the written version will be leading in case of textual differences. This will apply if both have the same version number and date. A definitive version has priority over a draft version. A revised version has priority over previous versions.

1.19 Terms of Use

The user may use the Health and Care Information Models without limitations. The copyright provisions in the paragraph concerned apply to copying, distributing and passing on the Health and Care Information Models.

1.20 Copyrights

A Health and Care Information Model qualifies as a work within the meaning of Section 10 of the Copyright Act (Auteurswet). Copyrights protect the Health and Care Information Modesl and these rights are owned by the cooperating parties.

The user may copy, distribute and pass on the information in this Health and Care Information Model under the conditions that apply for Creative Commons license Attribution-NonCommercial-ShareAlike 3.0 Netherlands (CC BY-NCSA-3.0).

The content is available under Creative Commons Attribution-NonCommercial-ShareAlike 3.0 (see also http://creativecommons.org/licenses/by-nc-sa/3.0/nl/)

This does not apply to information from third parties that sometimes is used and / or referred to in a Health and Care Information Model, for example to an international medical terminology system. Any (copyright) rights that protect this information are not owned by the cooperating parties but by those third parties.
